### **Biography:**

Lucas War Hero combines southern rock and country for a unique sound. The deep influences of southern rock musical greats like Lynard Skynard and The Allman Brothers and the country legions of Johnny Cash and Hank Williams can be heard in the covers and originals performed by LWH. The band mixes captivating harmonies, dynamic rock/country guitar solos and performance energy to capture the audience. The band works hard to stay true to the rich southern heritage that attracts the listener to this style music.

The band takes it's name from the character Lucas Jackson in the movie "Cool Hand Luke" starring Paul Newman and George Kennedy.
